

Positioning in the Industry

"Unique Position: Our positioning lies between IP and VDES."

Positioning that connects each company's areas of expertise to offer a more integrated ecosystem.

Patent

We completed the domestic transfer procedures for our intellectual property with a view toward international applications.

Name of Patent: “Data Communication Systems on Ships”
Registration Date: February 6, 2023

The patent aims to facilitate communication and coordination between next-generation maritime mobility systems, including drones and autonomous vessels, as well as among vessels at sea, mainly via information processing.

Non-public Patents
